

The simple and innovative LIMS solution

Looking for an approach to LIMS that is as flexible and dynamic as the way you work?

LabHQ is **the** affordable laboratory information management system (LIMS), perfectly designed 'by users for users' to optimise the processing of laboratory data. Web accessible, with minimal set-up required, LabHQ is the perfect LIMS option for any business.

...from as little as £50 per month

LabHQ is offered on an **affordable** rental plan with no contractual obligations or capital outlay. We offer a range of customisable support options, including full system administration and quality management, so you can choose the package that directly suits your requirements.

LabHQ is incredibly **easy to use**. With a user-friendly interface, the system is highly **flexible** and can be used across a variety of industry sectors. With no complex set-up or extensive staff training needed, this is the perfect LIMS for any laboratory.

For a high quality, secure, hassle-free LIMS solution, LabHQ has everything your laboratory facility requires in order to remain competitive in today's market.

Cost-effective:

Available from as little as £50 per month and with a free no-obligation one month trial, LabHQ is flexible and can be tailored to suit your needs.

Quality service:

A dedicated team of talented and motivated laboratory, software and quality professionals, committed to ensure you receive a continuous premium level of service.

Mobile:

A web-hosted application, meaning data can easily be accessed remotely wherever you have internet connectivity.

Secure and confidential:

Giving you peace of mind when it comes to the security of your data.

Quality and compliance:

Operating to ISO quality standards, LabHQ is fully validated to comply with worldwide cGMP requirements and fits seamlessly into your quality management system.

Efficient:

Improves the entire laboratory process of data handling from sample receipt to accessing valid test results.

Control:

Offers full support for smooth integration towards a more paperless cGMP laboratory environment.

Continuous development:

We are an innovative company with a clear goal to provide the most efficient and modern LIMS software available. Our focus is firmly on continuously improving our services and delivering exceptional value to all our customers.
